The Club offers a wide range of opportunities for its members to improve their turning techniques and enjoy the company of other turners. There are demonstrations at our Club meetings. Renowned guest turners do 6 hour workshops several times during the year at a nominal expense to club members. A free video and text library is available for their use. Members are invited to participate in our monthly wood raffle. All members are encouraged to bring samples of recent work to our 'SHOW & TELL' and become active participants. The Club participates in the American Association of Woodturners and encourages its members to join our parent organization. Many members attend their yearly symposium.

CLUB MEETING NOTES

Members preferences concerning grain direction (orientation) of the blank based on the desired effect, tool size and presentation, plus turning techniques made for an informative and enlightening morning. Thanks Steve for your efforts and for the delicious table of goodies.
