## **Show and Tell**

### **No Show and tell this month**

We normally do not have show and tell when professional turners are at the meeting, please bring all show and tell to Bob Urso's and Steve Fulgoni's house over the summer.

**DEMONSTRATION** - Spindle turning and basic woodturning techniques by Keith Tompkins.

Keith began his demo by showing some basic cuts with a roughing gouge and

emphasized riding the bevel for safe clean work. Start with the handle down and raise the tool until it begins to cut. He switched to a spindle gouge and showed the same technique keeping the tool at the center of the workpiece. He grinds the heel of the tool to create a secondary bevel which gives him greater clearance in tight spots.

Keith showed how he uses a skew to do a planing cut, make "V" cuts and to lay out beads. He turned a holiday ornament with a very thin finial and then turned a calabash bowl from some Hawaiian mango.
