

Long Island Woodturner's Association Newsletter

July Issue
August 1, 2020

Glenn Lucas

Lidded Bowl

LIWA is a chapter of the American Association of Woodturners. Our purpose is to foster a wider interest and appreciation of woodturning on Long Island and in the Metropolitan area. We generally meet on the third Saturday of each month from 9:00 AM until Noon at the Old Bethpage Village Restoration, Bethpage, L.I. See listing below for 2019 scheduled meetings:

Upcoming Meeting Schedule for 2020. All meetings run from 8:00 am to 12 noon

August 15
 Sept 12
 Sept 26 (yes, instead of Oct)
 Nov 28
 Dec 19

Club Officers

Chair of the Board: Ken Deaner
 President Les Hoffman (516) 431-2280
 Vice President Barry Saltsberg (516) 349-1914
 Secretary/Newsletter Barry Dutchen (516) 443-5342
 Treasurer Joe DeMaio (516) 766-5189

Members at Large

Steve Fulgoni
 Jodi Gingold
 John Kowalchuk
 Jim Maloney
 Paul Permakoff
 Pete Richichi

Thanks to photographer Bob Fentress and to Bob Lee for their screen shots.

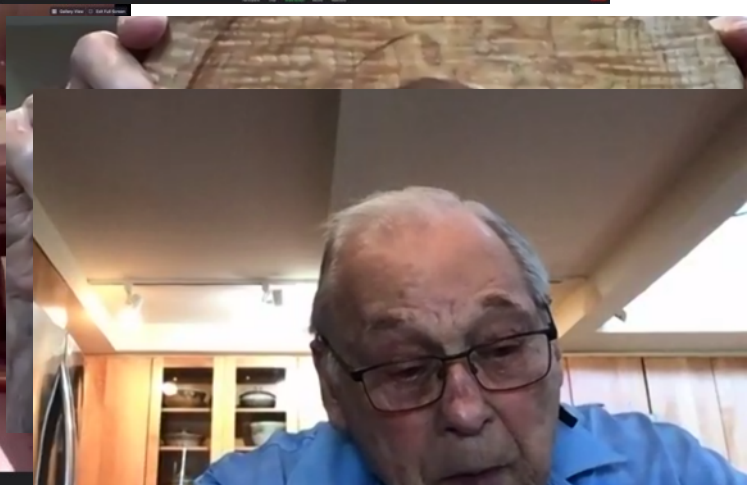

Summary of Meeting

We streamed our meeting and demo via Zoom. Glenn does not permit recording of his presentation so there will not be a link to view it at a later date. Please read the email from Jim Maloney (August 1) containing links from the chat. Here are some of the wonderful club members who donated their Beads of Courage boxes.

Show-and-Tell

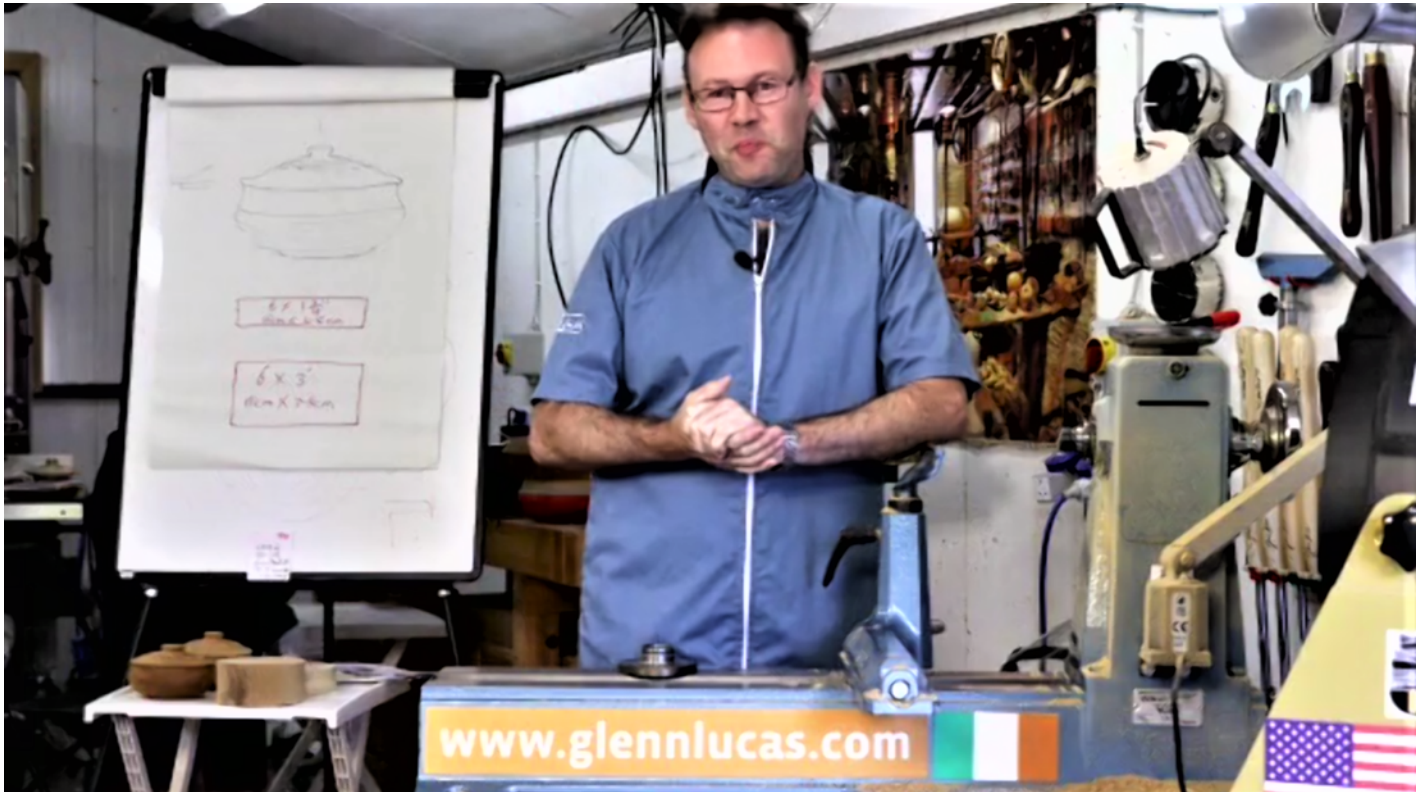

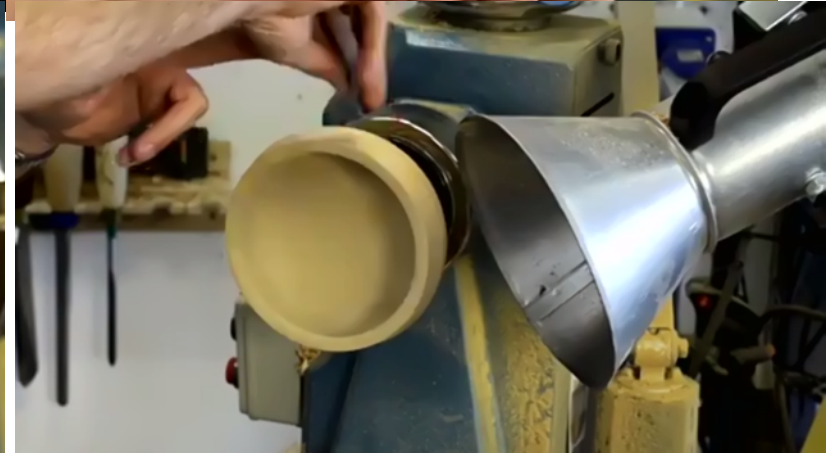

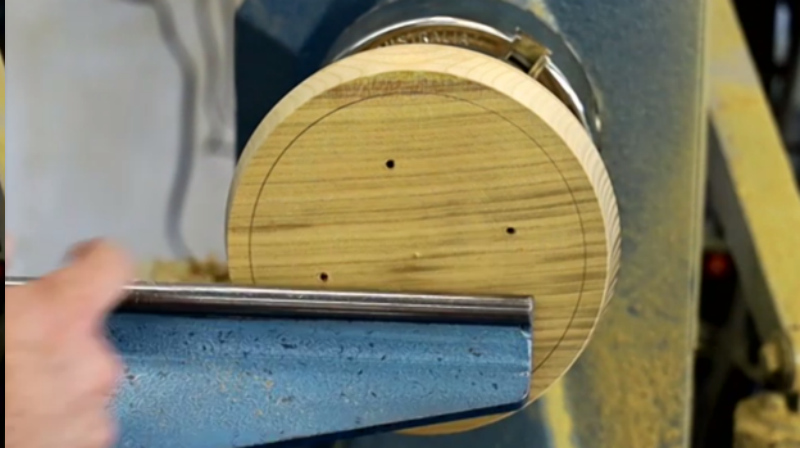

Main Event

Glenn Lucas

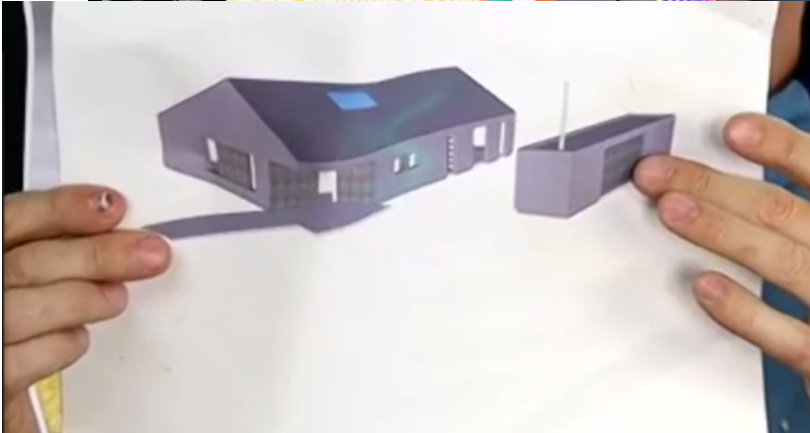

Presents:

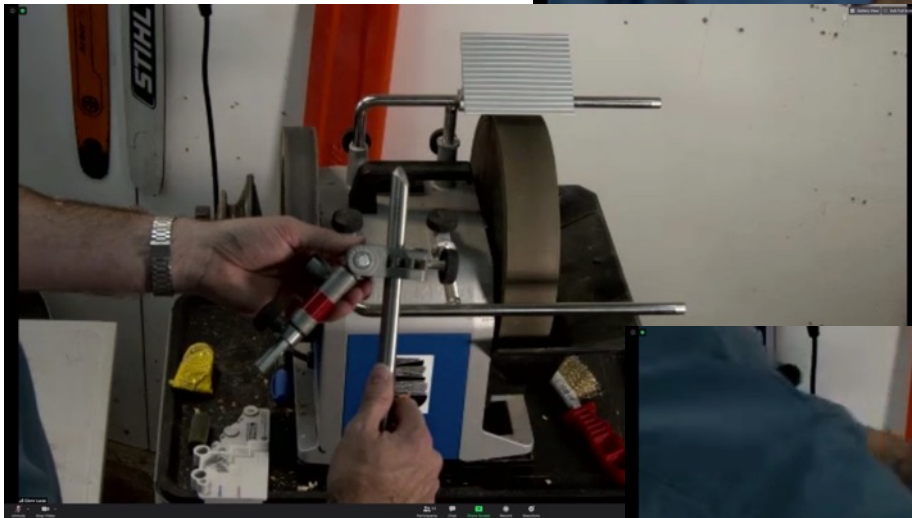

Making a Lidded Box

Subject: Links from today's chat on the Lidded Bowl Demo

Hi all, nice to meet you all in County Carlow, Ireland this afternoon.

Here is the topped and tailed verbatim chat, with links, as promised. Thank you in advance to Barry S for sending this out after the demo.

If you wish to receive our e-zine - please send us your email address to info@glennlucas.com and we will include you on this.

Perhaps we will see you on 9th August at noon your time, for our next demo 'Ask Glenn' (cost EURO €10 which is just over \$10. <https://www.glennlucaswoodturning.com/product/as-glenn-remote-demo-sun-9th-aug-12-noon-east-coast-usa-9am-pacific-5pm-irish-time-6pm-eu/>

Cornelia at Glenn Lucas Woodturning +353 59 972 7070

[Facebook](#)

Hi there, Cornelia here, Glenn's wife. The demo has begun, and everyone will be muted to keep the demo running smoothly. Please send me any questions you have via this 'chat function' and I will pass your Qs to Glenn when safe to do so! Enjoy

Wood dimensions for "Lidded Bowl"

Bowl: 6 x 3inch or 15x7.5cm, Side grain - Cherry

Lid: 6 x 1 ¾ inch or 15 x 4.5 cm, Side grain - Cherry

Download Video about the product is here and costs

EURO€15: <https://www.glennlucaswoodturning.com/product/pre-order-turn-a-lidded-bowl-download-video-of-live-demo-on-19th-july-2020/>

Another use for a lidded vessel ...

What is 'Beads of Courage' ? See [AAW partnership with BOC](#) and info about the guidelines if you wish to adapt Glenn's lidded bowl as a vessel for BOC

I can send everyone a 'topped and tailed' version of this chat ...so you will have all the links after the demo.

TOOL - RED [GL4. 5/8in Bowl Gouge. 55 degree](#)

TOOL- GREEN [GL5 1/2 inch bar, 45degree](#)

TOOL- BLUE [GL 6 – 5/8" bar Ø bottom finishing bowl gouge](#)

Screws for faceplate - SPAX screws (Home Depot) and US size 8 or 1 1/4in [Vicmarc chuck](#)

TOOL - [Diamond point scraper HCT44GL sharpened to 77 degrees](#)

Making beads - this way is with TOOL - GREEN. [GL8. 3/8 spindle gouge.](#)

For another way to make a bead - see Glenn's video on the [Beaded Bowl](#) or his [live demo video on the Beaded Bowl](#)

Andre Martell (small size) Callipers from Las Vegas Woodworkers Emporium. <https://www.woodworkersemporium.com>

TOOL -[GL1s French curve scraper](#)

Wall mounted [Dust Extraction arm and hood](https://glennlucaswoodturning.com/product/dust-extraction-arm-and-hood-1m-radius/) - on Glenn's online shop - 1M or 2M
<https://glennlucaswoodturning.com/product/dust-extraction-arm-and-hood-1m-radius/>

Sandpaper - [6in velcro based](#) discs that Glenn punches out into 2in or 3in disc.

[Sanding pads](#) (to attach to drill and then velcro the sandpaper on to)

Walnut oil will harden/cure. It needs some heat to cure - sunlight or the friction from the sanding -
 This walnut oil is from Mike Meredith - Doctor's Woodshop Oregon www.doctorswoodshop.com.
 Or Mike Mahoney walnut oil

1. Cover piece with oil on a cloth
2. Cloth backed sandpaper - start with 120 then to 180 grit then 240 then 320
3. Lathe speed 300
4. Speed up to 1000 and paper towel buffing the piece also creates heat to help the oil cure
5. On Day 2 - once the oil has cured, Glenn uses HERMES 500 grit silicon carbide paper on a slow speed (reverse lathe) to get the raised fibres
6. Then another coat of oil

More about [sanding in this download \(with short trailer\)](#)

TOOL - [GL10 - Square end scraper](#).

We hope to see you on Sun 9th Aug at Glenn's next session - [ASK GLENN](#)
 Or perhaps on a masterclass in Ireland or even a remote private
 class! <https://www.glennlucaswoodturning.com/product-category/training/>

Thank you, Glenn
